Our \$\$\$ at Work

Our Message

Delivering this message together reflects both a new approach in our annual report, as well as the recent realization of our collective belief that, "Every kid is amazing!" Over the past year, we have worked with the Directors of the Agency Board as well as staff from every level of the organization, to craft the first official Strategic Plan for BGC of South Coast BC, and this has given us new perspective and renewed our passion for supporting this work. While, of course, we want to give you a high-level summary of this past year, we primarily want to ask that you to join us to look forward.

First things first: 2012 was yet another great year in our efforts to raise funds! We raised more than in 2011, and laid the groundwork with new strategies and opportunities for people in every segment of the community to support our work. We also share a deep sense of gratitude to all those who contributed this past year. Thank you. And, we once again received an unqualified audit opinion, so now we're good to go! As we look forward, we are excited and optimistic that what we have planned will continue to position us as leaders in the community as it relates to children, youth, and families *and* providers of all good things that kids and families need.

Please join us, follow us, and stay in touch with us! We need all the help we can get!
