

South Coast BC

ODLUM BROWN

Independent Canadian investment firm Odlum Brown has been supporting the communities where our clients and team members live and work since our inception over 100 years ago! By partnering with over 150 like-minded organizations across Canada, including BGC South Coast BC, we hope to make a meaningful and lasting difference.

We are deeply inspired by BGC South Coast BC's work in empowering children and youth by providing them with a place of belonging where they can feel safe and supported, build positive relationships and discover their strengths. Their values of belonging, respect, encouragement, collaboration and advocacy also strongly align with our own commitment to community support.

This alignment in values makes us especially proud to be the Champion of the Frasierview Club. Through this partnership, we are helping to bring vital after-school and holiday programs to life through group games, creative arts, STEM activities, cooking and baking, physical activity and much more! Together, these opportunities create a welcoming and exciting Club environment for youth to thrive.

As a firm that embraces the responsibility to enrich our communities, Odlum Brown's corporate philanthropy spans the province with diverse sponsorships. As President and CEO Trevor Short notes, "Strong communities are built when we all invest in the next generation. At Odlum Brown, we believe that supporting children and youth is one of the most meaningful ways we can give back. Partnering with BGC South Coast BC allows us to help create safe, welcoming spaces where young people can learn, grow and reach their full potential."

THANK YOU FOR
SUPPORTING
AMAZING KIDS!
